Portable Audio/Video Recorders

424.1 PURPOSE AND SCOPE
This policy provides guidelines for using portable audio/video recording devices by members of this Department while in the performance of their duties. Portable audio/video recording devices include all recording systems, whether body-worn, hand-held, or integrated into portable equipment.

This policy does not apply to mobile audio/video recordings, interviews, or interrogations conducted at any Auraria Campus Police Department facility, authorized undercover operations, wiretaps, or eavesdropping (concealed listening devices).

424.2 POLICY
The Auraria Campus Police Department may provide members with access to portable recorders, either audio or video or both, for use during the performance of their duties. The use of recorders is intended to enhance the mission of the Department by accurately capturing contacts between members of the Department and the public.

424.3 MEMBER PRIVACY EXPECTATION
All recordings made by members on any department-issued device at any time, and any recording made while acting in an official capacity, regardless of the ownership of the device it was made on, shall remain the property of the Department. Members shall have no expectation of privacy or ownership interest in the content of these recordings.

424.4 MEMBER RESPONSIBILITIES
Before going into service, each uniformed member will be responsible for ensuring that the member is equipped with a portable recorder issued by the Department and that the recorder is in good working order. If the recorder is not in working order or the member becomes aware of a malfunction at any time, the member shall promptly report the failure to the member’s supervisor and obtain a functioning device as soon as reasonably practicable. Uniformed members should conspicuously wear the recorder or otherwise notify persons that they are being recorded, whenever reasonably practicable.

Unless working undercover, any member assigned to a non-uniformed position should wear and activate a body-worn camera when responding to a call, during a welfare check except for motorist assist, and while interacting with the public or entering into premises to enforce the law or investigate possible violations of the law (CRS § 24-31-902). Unless conducting a lawful recording in an authorized undercover capacity, non-uniformed members should conspicuously wear the recorder when in use or otherwise notify persons that they are being recorded whenever reasonably practicable.

When using a recorder, the assigned member shall record the member’s name, ACPD
identification number, and the current date and time at the beginning and the end of the shift
Portable Audio/Video Recorders

or other period of use, regardless of whether any activity was recorded. This procedure is not required when the recording device and related software captures the user’s unique identification and the date and time of each recording.

Members should document the existence of a recording in any report or other official record of the contact, including any instance where the recorder malfunctioned or the member deactivated the recording. Members should include the reason for deactivation.

424.5 ACTIVATION OF THE AUDIO/VIDEO RECORDER
This policy is not intended to describe every possible situation in which the recorder should be used, although there are many situations where its use is appropriate. Members should activate the recorder any time the member believes it would be appropriate or valuable to record an incident.

The recorder should be activated in any of the following situations:

(a) All enforcement and investigative contacts including stops and field interview (FI) situations
(b) Traffic stops including but not limited to traffic violations and all crime interdiction stops
(c) Self-initiated activity in which an officer would normally notify Dispatch
(d) Any other contact that becomes adversarial after the initial contact in a situation that would not otherwise require recording

At no time is a member expected to jeopardize the member's safety in order to activate a portable recorder or change the recording media. However, the recorder should be activated in situations described above as soon as reasonably practicable.

424.5.1 CESSATION OF RECORDING
Once activated, the portable recorder should remain on continuously until the member reasonably believes that the member's direct participation in the incident is complete or the situation no longer fits the criteria for activation. Recording may be stopped during significant periods of inactivity such as report writing, during discussions when civilians are not present, or when inside a jail with a functioning camera system (CRS § 24-31-902).

424.5.2 SURREPTITIOUS USE OF THE AUDIO/VIDEO RECORDER
Colorado law permits an individual to surreptitiously record any conversation in which one party to the conversation has given his/her permission (CRS § 18-9-303).

Members may surreptitiously record any conversation during the course of a criminal investigation in which the member reasonably believes that such a recording will be lawful and beneficial to the investigation.

Members shall not surreptitiously record another department member without a court order unless lawfully authorized by the Chief of Police or the authorized designee.

424.5.3 EXPLOSIVE DEVICE
Portable Audio/Video Recorders

Many portable recorders, including body-worn cameras and audio/video transmitters, emit radio waves that could trigger an explosive device. Therefore, these devices should not be used where an explosive device may be present.

424.5.4 EXAMPLES

The recorder should be deactivated when any of the following apply:

(a) In situations where medical or patient privacy is warranted
(b) When on the premises of any public or private elementary or secondary school, unless the member is responding to an imminent threat to life or health where there is potential for enforcement or criminal investigation
(c) When an individual requests to remain anonymous or is a confidential informant
(d) When personal information is being relayed that is not case related
(e) When discussing administrative, tactical, or management issues

424.6 PROHIBITED USE OF PORTABLE RECORDERS

Members are prohibited from using department-issued portable recorders and recording media for personal use and are prohibited from making personal copies of recordings created while on-duty or while acting in their official capacity.

Members are also prohibited from retaining recordings of activities or information obtained while on-duty, whether the recording was created with department-issued or personally owned recorders. Members shall not duplicate or distribute such recordings, except for authorized legitimate department business purposes. All such recordings shall be retained at the Department.

Members are prohibited from using personally owned recording devices while on-duty without the express consent of the Watch Commander. Any member who uses a personally owned recorder for department-related activities shall comply with the provisions of this policy, including retention and release requirements, and should notify the on-duty supervisor of such use as soon as reasonably practicable.

Recordings shall not be used by any member for the purpose of embarrassment, harassment or ridicule.
424.7 IDENTIFICATION AND PRESERVATION OF RECORDINGS
To assist with identifying and preserving data and recordings, members should download, tag or mark these in accordance with procedure and document the existence of the recording in any related case report.

A member should transfer, tag or mark recordings when the member reasonably believes:

(a) The recording contains evidence relevant to potential criminal, civil or administrative matters.
(b) A complainant, victim or witness has requested non-disclosure.
(c) A complainant, victim or witness has not requested non-disclosure, but the disclosure of the recording may endanger the person.
(d) Disclosure may be an unreasonable violation of someone’s privacy.
(e) Medical or mental health information is contained.
(f) Disclosure may compromise an undercover officer or confidential informant.

Any time a member reasonably believes a recorded contact may be beneficial in a non-criminal matter (e.g., a hostile contact), the member should promptly notify a supervisor of the existence of the recording.

424.8 REVIEW OF RECORDED MEDIA FILES
When preparing written reports, members should review their recordings as a resource (see the Officer-Involved Shootings and Deaths Policy for guidance in those cases). However, members shall not retain personal copies of recordings. Members should not use the fact that a recording was made as a reason to write a less detailed report.

Supervisors are authorized to review relevant recordings any time they are investigating alleged misconduct or reports of meritorious conduct or whenever such recordings would be beneficial in reviewing the member’s performance.

Recorded files may also be reviewed:

(a) Upon approval by a supervisor, by any member of the Department who is participating in an official investigation, such as a personnel complaint, administrative investigation or criminal investigation.
(b) Pursuant to lawful process or by court personnel who are otherwise authorized to review evidence in a related case.
(c) By media personnel with permission of the Chief of Police or the authorized designee.
(d) In compliance with a public records request, if permitted, and in accordance with the Records Maintenance and Release Policy.

All recordings should be reviewed by the Custodian of Records prior to public release (see the Records Maintenance and Release Policy). Recordings that unreasonably violate a person’s
Portable Audio/Video Recorders

privacy or sense of dignity should not be publicly released unless disclosure is required by law or order of the court.

424.9 COORDINATOR
The Chief of Police or the authorized designee should designate a coordinator responsible for:

(a) Establishing procedures for the security, storage and maintenance of data and recordings.
(b) Establishing procedures for accessing data and recordings.
(c) Establishing procedures for logging or auditing access.
(d) Establishing procedures for transferring, downloading, tagging or marking events.

424.10 RETENTION OF RECORDINGS
All recordings shall be retained for a period consistent with the requirements of the organization’s records retention schedule but in no event for a period less than 180 days (CRS § 24-31-902).

424.10.1 RELEASE OF AUDIO/VIDEO RECORDINGS
Requests for the release of audio/video recordings shall be processed in accordance with the Records Maintenance and Release Policy.
