Do not record third party finance cost to buy commodities. The applicable basis is Colorado Revised 24-50-504 (2)(c).
Computer Software Consulting
Specialized training, technical background or accreditation is required. Services require specialized training and background related to the specific project such as Banyan Vines network skills. Many of the services are performed in house but have short windows for completing projects while balancing regular workloads and require additional, temporary help from private contractors. The specialized project background knowledge is such that you cannot just call and order a “body” from typical temporary companies; specialized temporary personnel companies are contracted. Prior approval from the Pueblo Data Center (PDC) on all Data Entry services is required. The applicable basis is Colorado Revised 24-50-504 (2)(c).

Law Enforcement Services
Specialized training, technical background or accreditation is required. AHEC Public Safety Department is sole user for services. Services are presently performed by Police Officer I, II, III, and Intern. This service benefits the Tivoli Student Union and the merchants that lease space in the Tivoli. The individuals are off duty State Certified Police Officers and are used on an on-call, as needed basis. They also sign reports for the campus police that must be signed by a Denver Officer while on campus. Auraria Campus Police and Security Division has a finite number of Officers for the entire campus and cannot provide complete coverage for the extensive hours of operation of the Tivoli without securing the outside assistance. The Tivoli includes night events, movie theaters, merchants, and conference facilities which function beyond midnight. Auraria security guards at the Tivoli do not carry weapons, and therefore, are not authorized to perform all of those functions which may be needed for handling criminal activities. Due to recent activities, it is greatly advantageous to secure consistent Police Officer coverage. The ability to utilize Officers who are familiar with the building and programmatic functions is critical to the performance of obligations. Turnover, or the inability to hire Officers as needed, creates an inconsistent and unsafe environment. Duties include the full range of police services. A REVIEW BY AHEC HR IS REQUIRED OVER $5,000.
